REPORT OF THE FIRE CHIEF

The Department answered twenty-four calls during 1960. Several of these calls were to the Town Dump. Many times, under proper conditions and by an authorized person, fires are set there to clean-up and for sanitary reasons, but some are set by unknown persons, without permission at dangerously dry periods.

The Department is still inconvenienced by children playing with telephones and calling the fire emergency number.

Our annual carnival was a success despite rain which caused a postponement.

I am glad to report that the school runs a fire drill each month.

The interior of the fire house addition is progressing as to the matter of wiring and finish work. We are grateful to Mr. and Mrs. George Marcotte for their generous gift of the land upon which the addition is built.

We are hoping that the town will see fit to help the Fire Association purchase a new Class A Pumper. By this purchase a substantial insurance savings on family residences, plus the added protection of such a pumper would ensue. Also, at the present time — at all points where we have an adequate water supply — we do not have a pump large enough to supply a large volume of water under high pressure.

We are saddened this year by the passing of Ernest LeClair—one of our Association members of long standing.

Following is a list of the fires occurring in 1960.

REPORT OF THE FOREST FIRE WARDEN

Prevention Is Your Business

Carelessness, HUMAN CARELESSNESS, causes 9 out of 10 forest fires. Each year 200,000 fires burn over 30 million acres in the United States. This represents 5 percent of our nation's woodlands being wasted each year. Every fire takes its toll. Floods follow; stream flow is affected; timber, buildings, grazing and wildlife are destroyed — all because MANY are CARELESS with fire in and near woodland. This can be remedied, YOU can put an end to this shameful waste! PREVENTION is YOUR business!

YOU, whether you be a farmer, homemaker, business or professional man or woman, municipal, state or federal official, clerk or woodsman can play an important part in the continuing and vital prevention program.

First — by setting a good example YOURSELF — being sensible and complying with the necessary laws and regulations governing the use of fire in and near woodlands.

Second — by using YOUR individual influence in your community and valued council with others in insisting and encouraging them to do likewise.

The following simple rules may be used as a guide both for YOU and for them.

1. Before burning, secure a permit from your local forest fire warden — the law requires it.

2. Be sure to properly supervise your burning — don't leave it.
3. Make certain your fire, camp or debris, is DEAD OUT before leaving it.
4. Don't throw down lighted matches, cigars or cigarettes or from moving vehicles — make sure they are out — use your ash tray.
5. Don't burn at home — use your town dump and save yourself much possible difficulty, both personal and financial.

SUPERINTENDENT OF SCHOOLS REPORT

I would like to take this opportunity to thank the people of Fremont for their continued support of their educational program. It is very important at the present time to be vitally concerned about the youth of this community and continue to support education. For this reason then I would like to mention a service if Fremont were to accept in the future would greatly enhance the type of education the children would receive. I am referring to a part time guidance program that will assist teachers and parents of this community. Test data, strengths and weaknesses, and other related information will do much to help all children be a better student in our schools.

I therefore urge you to consider seriously the provision for one in the near future.

Reference is made again this year to the questions brought to your attention last year in my report to you; mainly the type of education you expect and the type you are willing to support. We still need to reduce class size to 25 or 30. We still need a program of studies. We still need a basic series in our subject areas. In addition one of the greatest needs in this Union is still help at the Union level. This is in relation to the position of Superintendent. It is unreasonable to expect anyone to fulfill all the obligations this person should fulfill as Superintendent of Schools and properly care for all the communities that are expected to be cared for in this Union. I feel it necessary to again this year request and emphasize the need for a Helping Teacher.

In looking over our needs listed last year it is noted that some of them have been fulfilled. For example, we are rapidly progressing toward a program of minimum essentials and a program of studies. We have improved our basic series in the subject areas. We have evaluated and made changes and are now using a new report card. We have developed and have only recently put into use a permanent record system that is universal throughout the Union. There is being offered an inservice training program for teachers, insignificant as it is at the present time, we are providing courses to improve teaching ability.

In conclusion I would like to offer to you as parents and citizens a challenge. Let us all search ourselves and others to determine what type of school is most desirable, ask ourselves if our school presently fits these requirements, and if not attempt to create change so that it will.

SCHOOL HEALTH REPORT

To: Mr. Wade, School Board Members, and
Citizens of Fremont

I am happy to report that for the first time in the history of the schools of our Union we have available the services of a speech therapist. Because Speech Therapy is a young field, this type of therapist is not available to many school systems. Speech defective children are much more numerous than we might suspect, and investigation shows that only one-sixth of them are being given the remedial instruction that they must have if they are to be helped. The response from most parents and from the P.T.A., sponsors of the program, has been enthusiastic. It is my hope that Speech Therapy will become an integral part of the school program.

Because of family responsibilities, our school doctor has had to give up her school connections on a regular basis. In spite of this, she has kindly offered to help with individual needs.

The position of Public Health Nurse no longer exists in this area. This means that preschool clinics will be discontinued unless individuals or groups in the community plan and initiate such action.

Other health services aimed at maintaining and improving the health of school children are being carried on as usual.

Respectfully submitted,

CONSTANCE J. HUSS, R.N.
